Git: https://github.com/LucasBruce **Age:** 29 years-old; **Marital Status:** single; **Nationality:** Brazilian

QUALIFICATIONS SUMMARY

➢ Full-Stack MBA postgraduate in 2023, I have experience in web development working as a full stack for Indra, SEFAZ and Banco do Brasil clients.

PROFESSIONAL EXPERIENCE

✔ **Indra - March 2025 - current:** Banco do Brasil client working on the migration of legacy systems, more specifically systems that use angularJS on the frontend and java on the backend, migrating to angular12+ (migration or creation) frontend development. Versioning code (git), resolving conflicts (git), unit testing (jasmine, karma), creating component diagrams and code review.

✔ **Indra - February 2022:** Pending demands from SEFAZ Financial Systems tower, more specifically in the ATF system in the collection module. Demands such as implementing screens for consultation, alteration, approval, cancellation and release of judicial blocks. Using Eclipse as IDE, using Java and Java EE, using SQL in queries to the bank and JavaScript for form validations and other operations.

ACADEMIC TRAINING

➢ College **IESP/FATECPB 2014 - 2017 Information Systems.**
